KEY SKILLS

- **Programming:** Java, Kotlin, C, Python, SQL/MySQL
- **Android Development:** Android Studio, Jetpack, Room DB, Firebase, Retrofit
- **Software Concepts:** OOP, Data Structures & Algorithms, Software Architecture, Multithreading
- **Design & Tools:** Figma, UI/UX Design, Git/GitHub, Bitbucket
- **Recent Coursework:** Unix Systems Programming, Design & Analysis of Algorithms, Capstone Project, Cloud Computing
- **Project Skills:** Team Collaboration, Project Management, Unit Testing & Debugging

OTHER INTERESTS

PHOTOGRAPHY

Photography in UNPLUGGED 2023, HOLI 2024 and ifthar (events hosted by Curtin Colombo)
Secretary of the Universities Photography club
Wildlife photography enthusiast

EDUCATION

CURTIN COLOMBO, SRILANKA

Software Engineering third year undergraduate

[Academic record](#)

3rd Year | Expected Graduation: 2026 November

[Dean's List Award \(year 2 Sem 2\)](#)

LYCUEM INTERNATIONAL SCHOOL

2009-2023

LANGUAGES

Native Sinhala.

Advanced English.

ACADEMIC QUALIFICATIONS

OL Qualifications 1A (Chemistry) 4Bs (Maths, Addmaths, Biology, Physics 2Cs (English), (English Lit)

AL Qualifications 2Bs (Maths, Physics) 1D (Chemistry)

EXTRA CURRICULAR ACTIVITIES

Member of university and school badminton teams, participated in multiple tournaments with medals, Received colors for school Badminton
Current Captain for the University badminton team

LEADERSHIP HIGHLIGHT

CURRENT BADMINTON CAPTAIN

Curtin Colombo University Badminton Team

ORGANIZED INTERHOUSE BADMINTON TOURNAMENT - 2026

Planned and coordinated the tournament, managed participants, schedules, and event operations.

SOME OF THE PROJECTS COVERED (VIEW ONLY)

GROUP PROJECTS

PocketLibrary – Offline-First Personal Library App

Android app that allows users to add and manage personal books, mark favourites, and attach custom cover images. Works fully offline with a local Room database and synchronises favourites and images to Firebase when online.

Technologies: Kotlin, Android Studio, Room DB, Firebase Firestore, Firebase Cloud Storage, ViewModel, LiveData

Demo & code (view only): https://drive.google.com/file/d/178vTbhtr8u69Yblu4QNZuVottcJilkC/view?usp=sharing_

Mortal Kombat X Online Gaming Lobby – Distributed Chat System

Developed a C# client-server gaming lobby where players log in with unique usernames, join rooms, chat in real time, and share files, with background threads keeping the UI updated without manual refresh.

Technologies: C#, .NET Framework, WCF, WPF, multithreading, TCP/IP, client-server architecture

Link: https://drive.google.com/file/d/11VVqgGaUs9yg_vIznOzPhVfOUTdQ3l0U/view?usp=sharing_

Synthora – Multimedia Collaboration Platform (HCI Project)

Designed high-fidelity Figma prototypes for a team collaboration platform in a 5-member group, applying HCI principles to improve usability. (I worked as the graphic designer)

Technologies: Figma, UI/UX design, HCI

Link: https://drive.google.com/file/d/1s2tTPKkgWDSEVXjWce4iQH5Do8ybaoD-/view?usp=sharing_

CSRF Demonstration Web App – Secure Online Orders

Developed a vulnerable Flask web app simulating an online ordering system, then implemented CSRF tokens and hardened cookie settings to demonstrate and mitigate cross-site request forgery attacks.

Technologies: Python, Flask, Flask-WTF, HTML, HTTP, web security

Link: https://drive.google.com/file/d/1s2tTPKkgWDSEVXjWce4iQH5Do8ybaoD-/view?usp=sharing_

INDIVIDUAL PROJECTS

Air-Traffic Simulation – Multithreaded JavaFX Application

Simulated multiple airports and planes using producer/dispatcher threads, blocking queues, and a servicing thread pool, with a live JavaFX grid UI showing real-time plane movements and statuses.

Technologies: Java, JavaFX, multithreading, BlockingQueue, ExecutorService, concurrency, PMD

Link: https://drive.google.com/file/d/178vTbhtr8u69Yblu4QNZuVottcJilkC/view?usp=sharing_

PeerHub – Peer-to-Peer Task Sharing System

Built a distributed peer-to-peer application where each node can publish, claim, and complete tasks via a shared mailbox abstraction, using TCP-based remote calls and background worker threads for polling and message handling.

Technologies: C#, .NET, TCP, multithreading, concurrency, object-oriented design

Link: https://drive.google.com/file/d/178vTbhtr8u69Yblu4QNZuVottcJilkC/view?usp=sharing_
